

Meet Escherichia coli. It is a bacteria that grows lab mutations, tumors, in feces spike proteins.

In this laboratory photo, Frankenstein scientists have equipped this bacteria with a lung.

This is an Obscenity. It is now inside human blood streams.

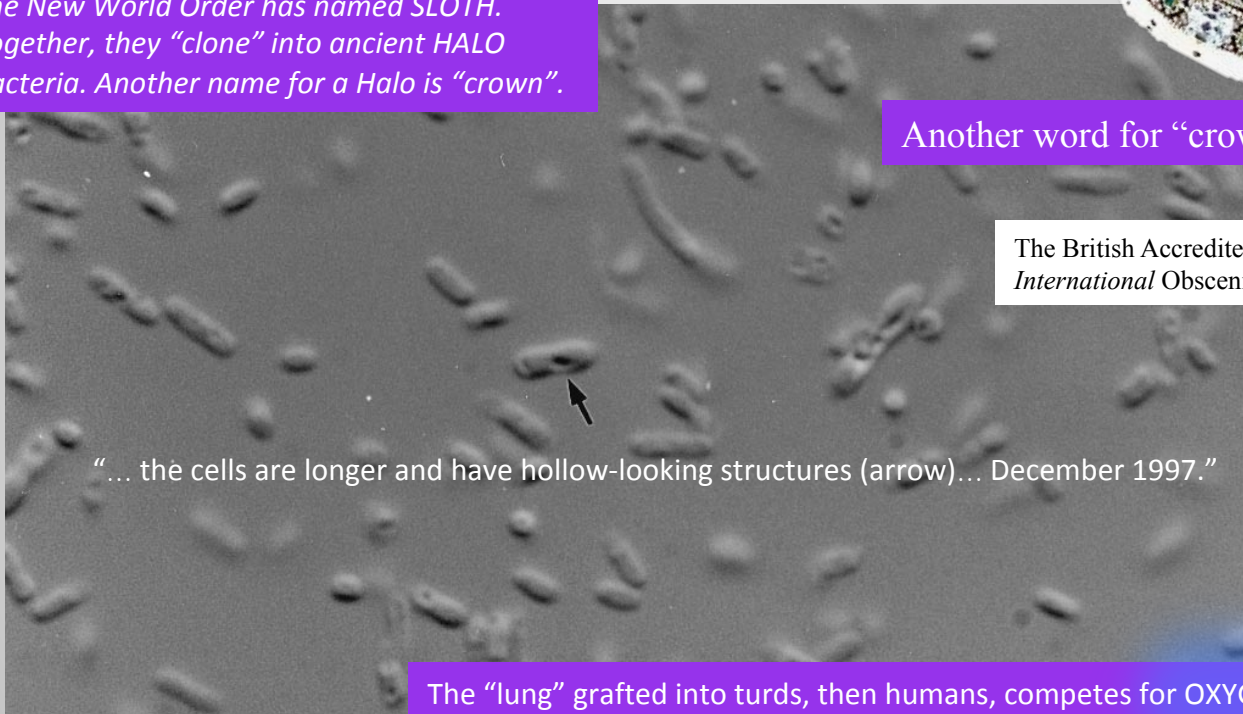

This is E. Coli cloned into yet another bacteria. The New World Order has named SLOTH. Together, they "clone" into ancient HALO Bacteria. Another name for a Halo is "crown".

This lung is on a virus

Another word for "crown" is "corona".

The British Accredited Registry is an *International Obscenity*; a RICO Syndicate.

"... the cells are longer and have hollow-looking structures (arrow)... December 1997."

The "lung" grafted into turds, then humans, competes for OXYGEN.

This Obscenity is the crowning achievement of criminal FILTH.

Cyanosis

Please visit the FB page, "Slappingtons" and read the intro post pinned at top.

Fair Use Doctrine applies

The Obscenity colors purple in mercurochrome (7 Gram dye positive mutants). Each become nourished in microwave radiation.
